## SLC Contest Eligibility – 2023

Students may compete in **ONLY one** contest from **Category 1** and **one** contest from **Category 2**! Students can compete in as many **Category 3** contests as they desire because they do not conflict with other contests. Many of the Category 3 contests will take place at the same time and Mousetrap Vehicles will require the student member to operate it during the competition. Students may not compete in Mousetrap Vehicle and TTPS – those happen at the same time Friday evening. SO – means it is a "State Only" contest. **Pay attention** to SO contests that specify they are open only to 9<sup>th</sup> and 10<sup>th</sup> graders.
