Heartland Events Center and Fonner Park
700 E Stolley Park Rd, Grand Island, NE 68801
www.SkillsUSANebraska.org

What is SkillsUSA?

SkillsUSA is a national nonprofit organization. It is a partnership of students, teachers and industry working together to ensure America has a skilled workforce. SkillsUSA serves middle school, high school and college students in programs preparing them for technical, skilled, and service careers. In addition to technical skills training, SkillsUSA provides educational experiences for students in leadership, teamwork, citizenship, and character development.

Mission:

SkillsUSA empowers its members to become world-class workers, leaders, and responsible American citizens. SkillsUSA improves the quality of our nation's future skilled workforce through the development of personal, workplace and technical skills grounded in academics.

History:

SkillsUSA was founded as Vocational Industrial Clubs of America (Vica) in 1965. In 2004, the name officially changed to SkillsUSA. Since 1965, the organization has served more than 14.6 million members. In Nebraska, more than 42,000 members have participated since 1967.

SkillsUSA Nebraska Championships:

The philosophy of the Championships is to reward students for excellence, to involve industry in directly evaluating student performance and to keep training relevant to employers' needs. The state championships showcase the best career and technical students in Nebraska. First-place winners compete in the SkillsUSA national championships in Atlanta, Georgia.

Become a Partner with SkillsUSA:

SkillsUSA partners are supporters of career and technical education. Our partners have an opportunity for input into skill training, a chance to recruit top technical students and the opportunity to help develop America's future workforce. Industry partnerships make the event possible. Partners can provide monetary sponsorship, in-kind donations, prizes for the medalists, contest supplies and materials, or scholarships. SkillsUSA seeks partners to coordinate contests making sure each reflect industry standards, provide judges, or sponsor luncheons for the state officers or advisors.

Impact:

Many industries today face a shortage of skilled workers, and SkillsUSA offers a tangible way to help solve this problem by ensuring that there will be a future workforce trained in the skills industry needs. SkillsUSA complements technical skill training with instruction in the employability skills that make a well-rounded worker and citizen. Our programs emphasize high ethical standards, superior work skills, lifelong education, and pride.
